Functional Fills Two Hour design/draw Class

Fills are fantastic, fun, and functional, too! Whether filling oodles of empty space or accentuating beautiful appliqué, fills are a very necessary part of quilting.

In class, Karen will share many of her favorite background fills, including her signature fan fill, as well as combining fills for maximum effect. She will also discuss density and scale of various designs and when to know which to use.

Supply Kit - \$10 (payable to teacher in class) includes a handout of all stitches covered, dry erase marker, batting eraser, and clear sheet protector for practice.

All Supplies are provided in the \$10 Kit.
